Our Team upholds highest level of Data Security while providing services to our Clients.

### **Client First**

We exist for our Clients. Our belief in Customer Satisfaction is 'adapt to Client Needs'

### **Team Oriented**

Clients, Employees and Shareholders are Equal Partners in Our Success

We provide the clients with the most advanced, cost effective and efficient Data Centre, Cloud and Networking solutions.

## who we are - message

**Kloudya** Team was able to create success stories that we proudly consider as assets of our client service over more than three years of dedication and hard work. Today we stand distinguished among the peers in the **Data Centre services industry** owing to our high support offered by our employees, partners, and investors.

We strongly believe that success lies in our ability to achieve the only goal: "**Making Client Business Disaster Proof**". With each step performed by our teams during every service delivery, we focus on our core values that define us both as an individual and as an organization. Conceptualised in 2017, Kloudya on the verge to provide excellent solutions through its products and services especially in the growing Global Data Centre Industry.

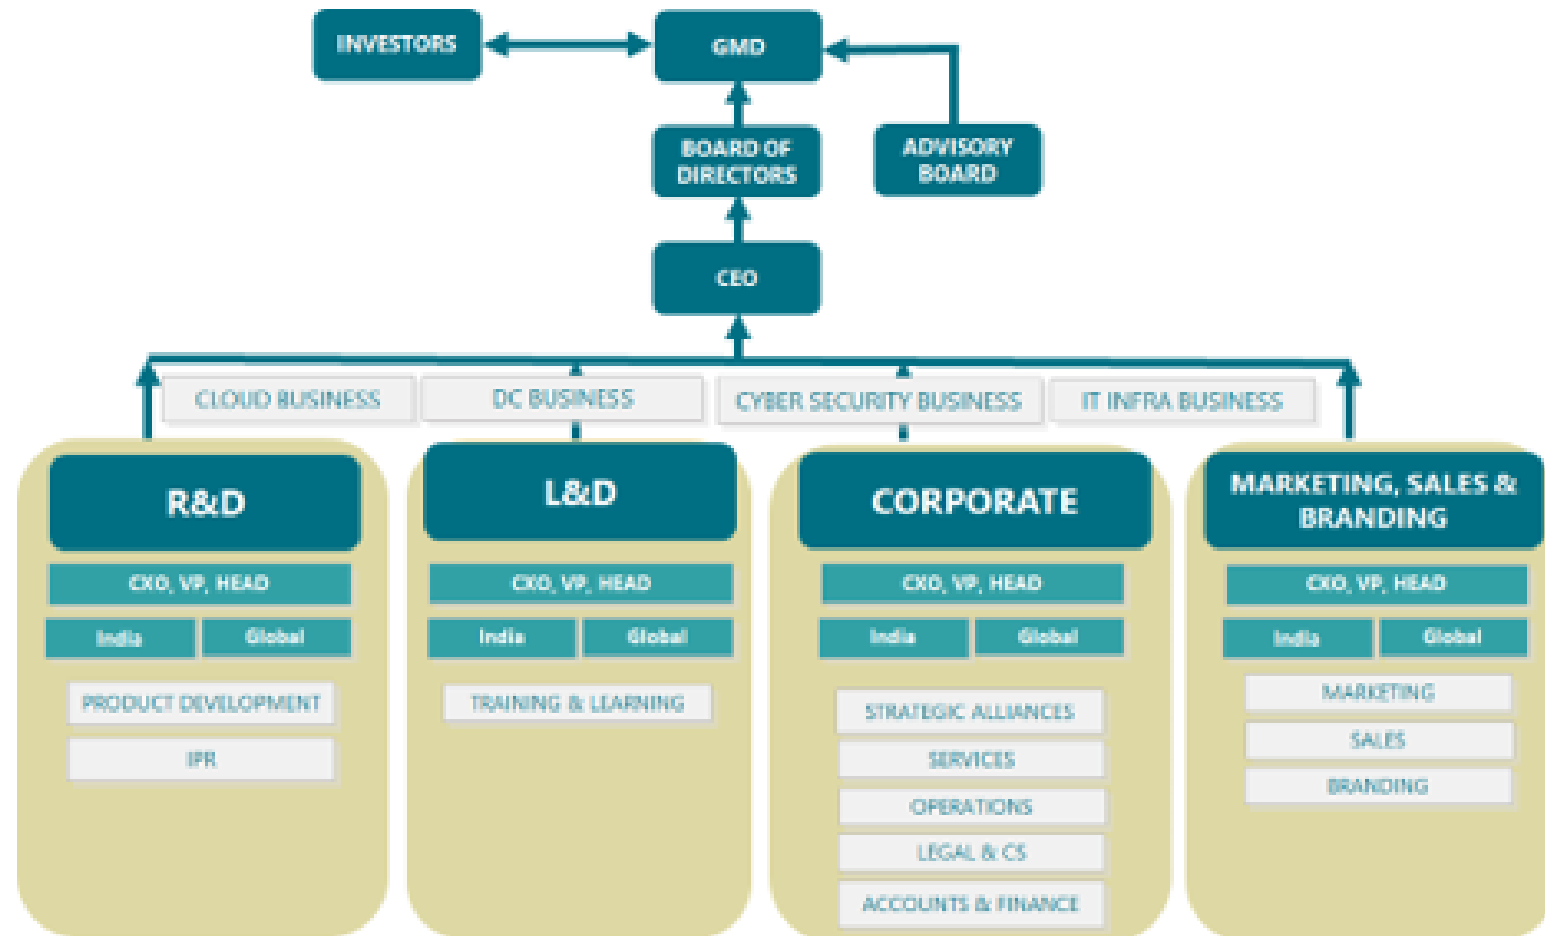

We strive to meet our client needs and achieve their satisfaction through our philosophy of "**Do More, With Less**"; thus assuring a **win-win approach** for better results within budget and ensuring **omnipresence** of real-time business data within clients' complete control. Today, Kloudya, a technology product company, is on the way to become a **single platform** solution provider starting in Indian market and expanding its horizon globally.

We take this opportunity to say **thank you** to our clients who trusted us and gave us the **opportunities** to serve them best. And also to our **visionary investors** and **vibrant teams** which helped us to achieve these milestones.

Cordially  
Gaus Maniyar  
MD & CEO

Next Gen Data Centre

# Kloudya - data center

- Aspiring for Tier - IV Certification to ensure 99.99% Data Centre uptime
- Smart In-Rack Cooling makes it world class Green Data Centre
- State of the art Infrastructure scalable to support 1.5 M concurrent users
- In phase I, provision to support 5 million user data taking storage upto 12K TB
- Latest Hyper Converged Infrastructure gives you the best compute
- Highly secure and High Available Cloud services
- Very competitive rates for Cloud and Data Centre as a Service (DCaaS)

## ▲ what we are about – our core competency

The time has gone when data centres were made of only racks and cables consuming huge space and energy and generating huge amount of heat. At upcoming KLOUDYA facility, experience the next gen GREEN DATA CENTER with smart cooling cabinet and highly efficient hyper converged secure and scalable environment.

In today's frequently changing business world, to meet the increased demand for remote work and business processes, Kloudya data centre has an edge over their competitors

- **CLOUD environment** built on indigenously designed architecture using Hyper Converged Infrastructure and AI
- **Local Support** available as per client requirements
- Build customized solutions and APPs with support from our **DEVSOL** Platform
- **Easy billing** based on **single parameter** resulting in cost effective solutions
- Default **windows platform at the price of non-windows** platform
- Instant **Upgrade and Downgrade** of resources at any instance of time
- IT infra like **HCI, Flash Storage, VDI** and **BOYD** makes it work from anywhere, the new business norm
- **Software Defined Networking** and **Network Function Virtualization** makes Kloudya scalable to meet any future industry demand

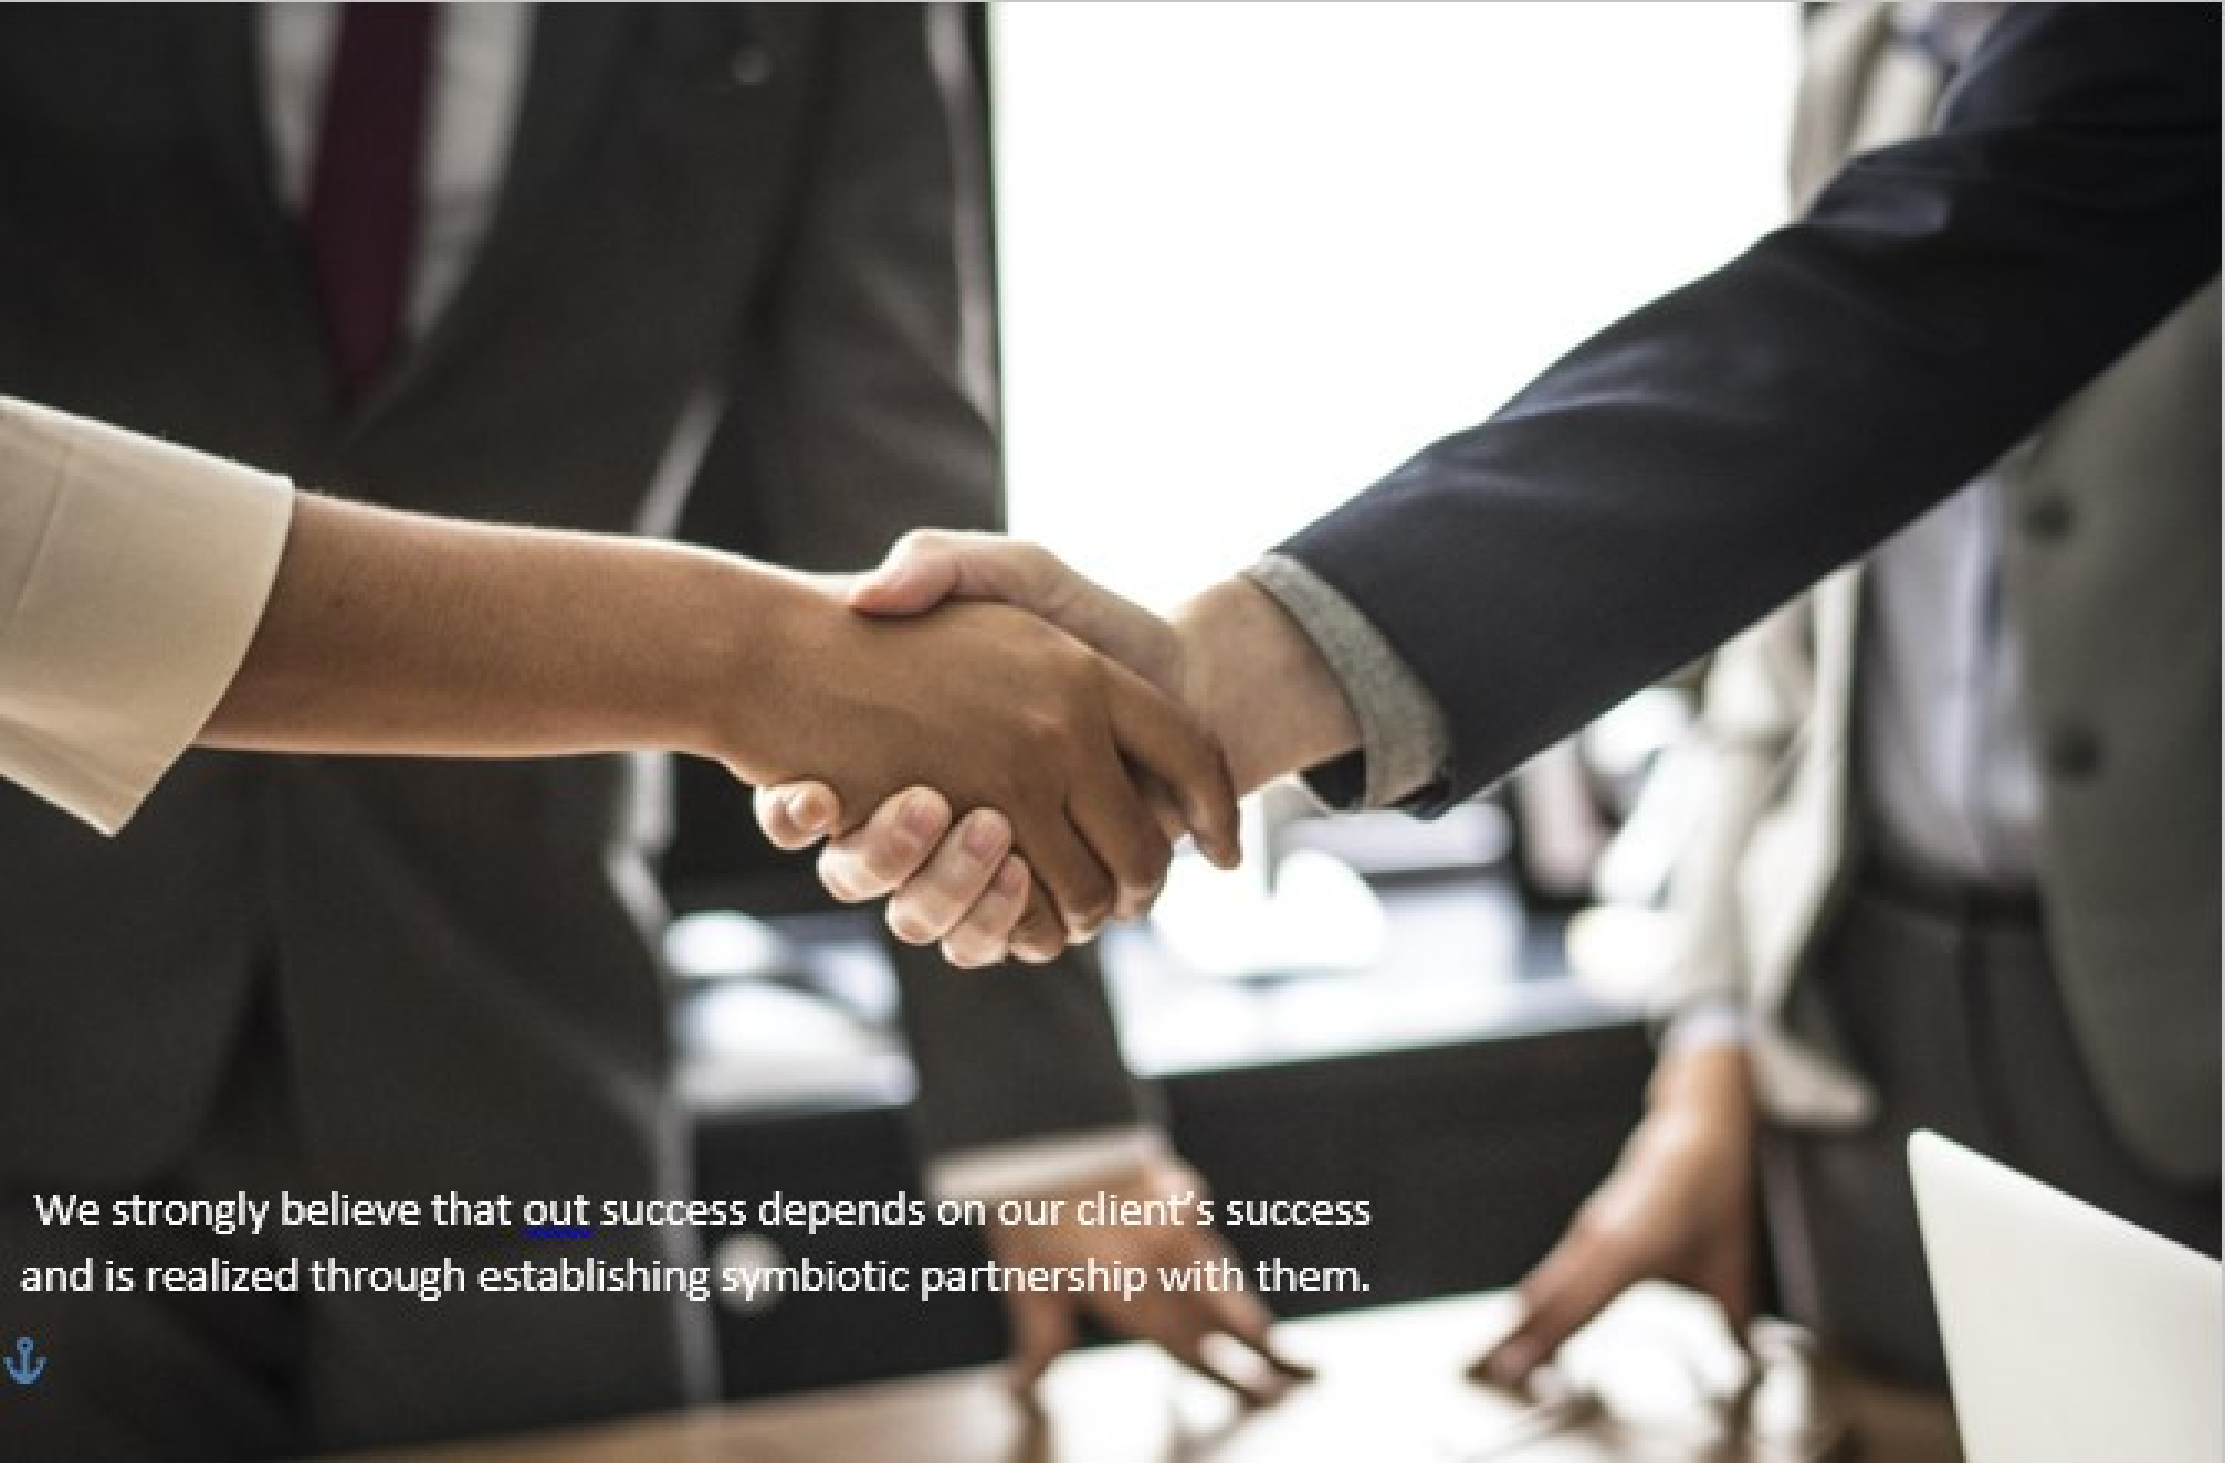

We offer world class products through  
Kloudya cloud service across our product

best of what we did - **portfolio**

**KLOUDYA**

**K- PANEL**

We strongly believe that our success depends on our client's success and is realized through establishing symbiotic partnership with them.
